

Foam Laminating Machine(Flame Type)

Main Usage:

This machine adopts Flame Laminating Type which is used for Foam Sheets & Non-Woven Fabric Laminating, Foam Sheets & PVC Sheets Laminating, PVC Sheets, & Non-Woven Fabric Laminating ... etc

Specification:

Laminating Width:	W1800 ~ W2400mm	Laminating Thickness Range:	2mm ~ 10mm
Output:	1 ~ 60 Yards/min	Suction Fan Device:	One Set*1.5kw
Gas Type:	Natural Gas Available	Auto Edge Checking + Auto Rolls System:	One Set
Control Type:	Electric Control	Machine N.W.:	3100kg
Heating Roller Size:	Dia 1500*W1830mm	Total Motor Power:	6kw
Ignition Method:	Use Lighting Gun By Manual	Floor Space:	L8000mm*W3200mm*H2400mm
