

Re-bonded Foam Making Machine(With Steam System)

Main Usage:

This machine works with Foam Shredding Machine for Re-bonded Foam producing.

Specification:

Mixing Tank Capacity:	10CBM	Option of Auto Materials Loading System:	(Choose Available) Storage Tanks: 100L*1pc, Match with Chinese Pump for Materials Loading
Output:	10 ~ 16 Blocks/day		
Mixing Speed:	0 ~ 50rpm	Control Type:	Automatic Electric Control
Mixing Motor Power:	5.5kw	Boiler Capacity:	100kg
Oil Hydraulic Pressure:	12 Ton	Machine N.W.:	4500kg
Re-bonded Foam Density Range:	0 ~120kg/CBM	Total Motor Power:	11.75kw
One Pneumatic Square Mould Size:	L1200mm*W1600mm*H1000mm (To Be Requested)	Floor Space:	L6000mm*W3600mm*H5500mm
