

Fully-Auto Re-bonded Foam Making Machine(With Steam System)

Main Usage:

This machine designed with Fully Auto Storage Tank System, Fully Auto Scale System, Fully Auto Chemical Feeding & Spray System, Fully Auto Double Hydraulic Press System & Fully Auto Steam System. It is for high quality rebounded foam production. Operation is simple and easy. Production efficiency is very higher than normal type.

Specification:

Mixing Tank Capacity:	10CBM	Auto Chemical Feeding & Spray System:	Chemical Tank: 100kg*1pc Match with Chinese Pump
Output:	60 ~ 90 Blocks/day	Auto Scale System:	Max. 500kg
Mixing Speed:	0 ~ 50rpm	Control Type:	PLC Programmed, Automatic Electric Control
Mixing Motor Power:	5.5kw	Boiler Capacity:	200kg
Double Oil Hydraulic Pressure:	40Ton	Machine N.W.:	8000kg
Re-bonded Foam Density Range:	0 ~ 120kg/CBM	Total Motor Power:	19.5kw
Two Automatic Square Mould Size:	L2100mm*W1600mm*H1600 (To Be Requested)	Floor Space:	L8000mm*W3600mm*H7500mm
Auto Storage Tank System:	Dia 2000mm*H6000mm
