

Foam Mattress Compress & Packing Machine

Main Usage:

This machine is used for Foam Blocks & Foam Mattress Compressing, Sealing then Packing into small capacity.

Specification:

Oil Hydraulic Pressure:	20 Ton	Sealing Device:	One Set
Heating Temperature:	0 ~ 200°C	Max. Sealing Width:	W2100mm
Working Table Size:	L2100mm*W2200mm*H600mm	Control Type:	Automatic Electric Control
Lifting Distance:	H100 ~ H600mm	Machine N.W.:	4500kg
Work Speed:	0 ~ 25m	Total Motor Power:	1.5kw
Oil Hydraulic Capacity:	300L	Floor Space:	L2500mm*W2300mm*H3000mm
